There was not much to be got from the people his men brought to him. The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived. Dragonfly said. "Hungry? Eat," he said. Little way, a few strides. She turned and looked back down at him. "What keeps you from the hill?" "Already?" she said, and then saw him. That bears garnets. All under this part of the city is that rock. I don't know the names. Masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery. Banners still flew from the towers of the City of Havnor, and a king still ruled there; the banners were those of captured towns and isles, and the king was the warlord Losen. Losen never left the marble palace where he sat all day, served by slaves, seeing the shadow of the sword of Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and the slaves said, "It is done, your majesty." He held audiences, and old men came and said, "We obey, your majesty." He summoned his wizards, and the mage Early came, bowing low. "Make me walk!" Losen shouted, beating his paralyzed legs with his weak hands. "Of all of us. Of Way, and Felkway, and Havnor, and Wathort, and Roke. All the people of the islands. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the old Archmage to come crown him, and he wouldn't come. And there was no new Archmage. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king. So others say the dark years will come again, when there was no rule of justice, and wizardry was used for evil ends." Soon, he thought now, he would not need one. He would have real power over her. He had finally seen how to get it. She had given it into his hands. Her strength and her willpower were tremendous, but fortunately she was stupid, and he was not. Wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And home truths. Blue that clung to her like a liquid congealed; her arms and breasts were hidden in a navy-blue. "He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him." "Them, he knew. It had come with her. The light had come back into Diamond's dark eyes. Mild sunlight of late spring. You don't care, eh? Stay a while. You can see," And he set off down the path between the parsley and the bush-beans. She looked at the Doorkeeper; he smiled a little. She followed the pale-haired man. "If I did, it would be up to you all to approve or disapprove," said he. Coiling tail, the talons, and the breath that was bright fire. On the crest of the Knoll she. He resolved to wait and watch. Being a patient man with a strong will, he did so for four years, till Diamond was sixteen. A big, well-grown youth, good at games and lessons, he was still ruddy-faced and bright-eyed and cheerful. He had taken it hard when his voice changed, the sweet treble going all untuned and hoarse. Golden had hoped that that was the end of his singing, but the boy went on wandering about with itinerant musicians, ballad-singers and such, learning all their trash. That was no life for a merchant's son who was to inherit and manage his father's properties and mills and business, and Golden told him so. "Singing time is over, son," he said. "You must think about being a man." The other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone. It circled, searching and searching, and flew back as it had come. The boys I had studying at the Tower left. At that the Summoner ran up towards her, reaching out, lunging at her as if to seize and hold her. They were both on the hill now. She towered above him impossibly, fire breaking forth between them, a flare of red flame in the dusk air, a gleam of red-gold scales, of vast wings - then that was gone, and there was nothing there but the woman standing on the hill path and the tall man bowing down before her, bowing slowly down to earth, and lying on it. Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds. Quiet talk among them. Crevasse. "Close, Mother! Be healed, be whole!" Tinaral, Anieb's presence within him. It was only a few steps round it to the scar, the seam. Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay. She looked at him. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had

named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..from the trees with his sunlight-coloured hair shining in the sunlight..might be able to. I can feel it building up, can you?."Don't be afraid," Gelluk said, his voice strong and musical over the panting gasp of the huge bellows and the steady roar of the fire. "Come, come see how he flies in the air, making himself pure, making his subjects pure!" He drew Otter to the edge of the roasting pit. His eyes shone in the flare and dazzle of the flames. "Evil spirits that work for the King become clean," he said, his lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and impurities fester and run free from their sores. And then when they're burned clean at last they can fly up, fly up into the Courts of the King. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner.. Irioth began to say the words that would bind him, and the shaken man cowered away, shrinking down, shriveling, crying out in a thin, high wail. It is wrong, wrong, I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth, fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was done. But the fire burned in Irioth's hands, burned his eyes when he tried to hide his eyes in his hands, burned his tongue away when he tried to speak..The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien.
