The living room alone could have housed a Third World family of twelve, complete with livestock..Perhaps he had been hasty, and maybe just a little naive, when he and Eve had talked with Lechat, he admitted to himself. He still believed, as he had believed then, that the Terrans would melt quietly into the Chironian scheme in their own time if they were left alone to do so, but it was becoming apparent that not everybody was going to let them alone. He still couldn't see permanent Separatism as the answer either, but for the immediate future he would feel more comfortable at seeing somebody with a level-headed grasp of the situation in control-such as Lechat. On reflection, Pernak regretted his response to Lechat's plea for support. But it was far from too late for him to be able to change that. He didn't know exactly what he could do to help, but he was getting to know many Chironians and to understand a lot about their ways. Surely that knowledge could be put to some

A man looms over them?tall, with a glossy black beard, wearing a green cap with the words.That morning Paul Lechat, whom she had never thought of as especially noteworthy on any issue, had announced himself as a late candidate in the elections and called for the establishment of a separate Terran colony in Iberia, somewhere up in Selene. He wanted to allow the people from Earth to pursue their own pattern of living without disruptive influences for the immediate future, and possibly to make such an institution permanent if it suited enough people to do so. To Jean the announcement had come as a godsend, and to many others as well, if the amount of popular support that had materialized from all sides within a matter of hours was anything to go by. Why couldn't everybody see it that way? she wondered. It was so obvious. Why were there always some who were obstinate and valued political interests before what common sense said would be for the common good, such as Kalens, who even now was reacting to Lechat as a threat and rallying his own followers to action?. "It pays to have friends," Colman grunted..make-believe cop, like what I am now, and if someday I can't do this . . . "Bernard told me about it," Pernak said before Jay could offer anything. "I guess he's under a lot of pressure right now, so don't read too much into it." He stared at the box in Jay's hand. "Did you ask him about it?" "Uh-huh." "And?" lay squinted into the distance and scratched his head. "Pretty much what I expected. Nothing personal; you're an okay guy; if it was up to him, things would be different, but it's not--stuff like that. But he was only saying that so as not to sound mean--I could tell. It goes deeper than that. It's not a case of it being up to him or not. He really believes in it. How do people get like that?".The colonization of Chiron was over..Micky finished her coffee in long swallows, as though she had forgotten it wasn't spiked, and though she.Bernard hadn't really thought of that. He saw Jay nodding vigorously, and tossed up his hands. "Why not? :If.dreamed it, she twisted around in time to see the "treasure out of Eden" as it raveled in a long arc to the.foot.. "They never had any parents of peers for that kind of stuff to rub off from," Pernak agreed. "Classes, echelons, black, white, Soviet, Chinese ... it's all the same to them. They don't care. It's what you are that matters."..That didn't explain anything. Jay couldn't see it either. "Yes, it would be-nice if everyone in the world were reasonable and rational about everything all the time. But they can't be, can they? Chironians have the same mix of genes as everyone else. There can't be anything radically different."..of a predator, it couldn't have been scarier if it had been a massive python or a full-grown rattlesnake..and earn her approval..He was satisfied that the Chironians would never provoke hostilities because they harbored no fears of Terrans and accepted them readily, as everything since the ship's arrival had amply demonstrated. They didn't consider the way Terrans chose to live to be any of their business, wouldn't allow their own way of life to be influenced, and weren't bothered by the prospect of having to compete for resources because in their view resources were as good as infinite. But he felt less reassured about the Terrans- at least some of them. Kalens was still making inflammatory speeches and commanding a substantial following, and Judge Fulmire was under attack from some outraged quarters for having refused to reverse the decision not to prosecute in the case of the Wilson shooting. And more recently, Pernak had heard stories from the Chironians about Terrans who sounded like plainclothes military intelligence people circulating in Franklin and asking questions that seemed aimed at identifying Chironians with extreme views, grudges or resentments, and strong personalities-in other words the kind who typified the classical recruits for agitators or protest organizers. The effort had not been very successful since the Chironians had been more amused than interested, but the fact remained that somebody seemed to be exploring the potential for fomenting unrest among the Chironians. The probable reason didn't require much guesswork; Earth's political history was riddled with instances of authorities provoking disturbances deliberately in order to justify tough responses in the eyes of their own people. If some faction, and presumably a fairly powerful one, was indeed maneuvering to bring..than Micky's had been, only different. Hardship strengthens those it doesn't break, and already, at nine..Jean raised her hands in an imploring gesture. "Doesn't what Paul Lechat was saying this morning make a lot of sense to you? Isn't it the only way? Well, he's going to need help to do it. I expected you to get on the line right away and find out if there was something we could do..enough to drink ought to be ashamed..Leilani opened the door to her room and switched on the light.
